Customer's challenges

- Guarantee all of the client's quality, safety and security requirements
- Strengthen and guarantee the physical protection of the Orano site
- Optimise inspections to save time and money

Our solutions

- Deployment of a drone inspection solution for sensitive sites
- Optimisation of qualification durations and performance testing of active physical protection equipment

Customer's benefits

- Reduced intervention costs and carbon footprint
- Improved survey accuracy even in hard-to-reach areas
- Improved worker safety through automation

CSR commitment

- Application of Orano's health and safety policy
