Customer's challenges

- Going paperless in the workshop
- Optimising alert management
- Improving traceability and quality
- Modernisation and digitalisation of internal production processes

Our solutions

- Digitalisation of production work instructions
- Real-time display via an ANDON-type screen
- Systematic traceability of operations, major components and quality controls
- Establishment of a partnership for the integration of an MES COOX solution from Ordinal Software

Customer's benefits

- Provision of an on-site training tool for temporary workers
- Saves time and improves the efficiency of quality controls
- Improved real-time production monitoring
- Quantifying and qualifying production line stoppages

CSR commitment

- Improved working conditions for employees
- Paperless
